<p>Sixteen years ago in 2003 Sen Tekstil began his career in the textile industry. Our company produces 100.000 knitted outerwear with his suppliers for men and woman per month with his 60 employees. Currently we supply our customers in Germany with the above mentioned quantities. Because of our expansion we have more capacity available as well. Furthermore, Sen Textile offers design services with 30 years' experience in the industry. With application-oriented and diverse models we offer first class service for stamp-, printing-, stone and digital printing. Computerized cutting systems which enable us without errors in the size and the inclusion of the smallest details, we create a flawless cutting and working method. Sen Tekstil believes that quality is no coincidence, rather they know that this arises are the result of conscious business processes. Then it comes to quality at the company, it has long since become a corporate culture and a lifestyle.</p>

We are a Turkish company, located in Izmit, close to Istanbul, founded in 1971, 55 employees, leading manufacturer and exporter of industrial plastics (PA6G/ PTFE/ PE1000/ HDPR/ POM/ UHMWPE) of semi-finished and finished products with advanced product technology. We are looking for partners, dealers, wholesalers. We provide full engineering solutions from initial concept to completion or semi-finished products with a wide variety dimensions. Our customers are the construction, mining, agriculture, oil-gas industry, as well as electric insulators in the energy sector. Partnership could either be established by a distribution partner - manufacturer, who wants to broaden his range of products or retailer with very good contacts to an industrial plastics sector - or by creating a production joint venture.

<p>We are a Turkish company, located in Bursa, named "MAROF Building Industry Mining Trade" which has been serving in the sector for more than 13 years by combining our knowledge and experience with quality. We produce water insulation materials with our expert staff. We have all the necessary certificates such as TSE, CE and ISO 9001 certificates. Waterproofing is a process that needs to be done from the foundation to the roof with great sensitivity. The mistakes made bring with them many problems such as static calculation of structures, formation of unhealthy environments and loss of aesthetics. For this reason, many companies that aim to do high quality work at cheap cost are actually losing more cost and time with their renovations. We rely on our products and quality.</p>
